

What do I bring on an overnight rafting trip?

- 1) Tent *(if you don't have one, we can rent you one for an additional \$5!)*
- 2) Sleeping Bag *(if you don't have one, we can rent you one for an additional \$5!)*
- 3) Pillow
- 4) Sleeping pad (air mattresses, paco pads, etc)
- 5) Headlamp or Flashlight
- 6) Personal Items (toothbrush, deodorant, insect repellent, etc.)
- 7) Clothing- the following is our recommendation:
 - 2 pairs of footwear- one for the river and a dry pair for camp (river shoes should be secure on your feet- no flip flops)
 - Hat, sunblock, sunglasses, (with a strap so you don't lose them!) and anything else to protect you from the sun
 - Clothing for the river (Quick dry is great- you'll be wet!)
 - Clothing for camp (dry clothes- a windbreaker or jacket is nice to have on cool nights)
- 8) Optional gear like special beverages (cans or plastic only), snack food, water fighting artillery, fishing gear (don't forget to purchase your license), books, magazines, camera, binoculars, etc.

There will be a cooler on each raft for beverages, however alcohol is not permitted while rafting so that will be carried on the gear raft and available for you at camp.
